INTRODUCTION

Welcome to the Weather To Wear user manual.

Weather To Wear is an application designed to help you plan outfits based on weather conditions, manage your wardrobe, and connect with a community of style enthusiasts. The system integrates weather forecasts with clothing recommendation and offers tools to organize your closet virtually, plan outfits, and share styles. This manual will guide you through installation, navigation and usage of the app features.

LANDING PAGE

Upon first launching the Weather To Wear, you will see the landing page which explains the purpose, aim and functionality of Weather To Wear. This page gives you the option to create an account which you will need to set up and configure initial settings.

The landing page features a dark header with the WeatherToWear logo and a "Style Simple" section. Below is a "What is Weather To Wear?" section with a description and a "Features" section with four cards: Weather Integration, Smart Closet, Outfit Planning, and Style Community. The main content area includes a Testimonials section with a testimonial from Alisha P. and a How It Works section with three steps: Set Your Location, Add Wardrobe, and Get Outfit Ideas.

Style Simple

Your personal weather-based clothing assistant.

What is Weather To Wear?

Weather to Wear is your ultimate companion for dressing smartly based on real-time weather, your personal wardrobe, and upcoming events. We simplify forecasts into a personalized wardrobe consultant so you always step out confident and weather-ready.

Features

Everything you need to look and feel great in any weather.

Weather Integration

Real-time weather insights plus AI-driven outfit recs for every forecast.

Smart Closet

Digitally organize your wardrobe and get perfect combos in a tap.

Outfit Planning

Plan your week's looks in advance with seamless calendar sync.

Style Community

Share your looks, get feedback, and inspire fellow fashion-lovers.

Testimonials

Our main goal is to make your life easier and more stylish. Here's what our users say.

"Weather to Wear has simplified my mornings. I get dressed quickly without checking multiple apps."

Alisha P.
Weather To Wear user

How It Works

- 1 Set Your Location**
Allow location access or enter your city.
- 2 Add Wardrobe**
Save your clothing items for suggestions.
- 3 Get Outfit Ideas**
Receive weather-based outfit recommendations.

Login/Sign up

From the landing page you are able to navigate to one of the authentication pages, either Sign up or Log in.

1. ACCOUNT SETUP

- Sign Up : Navigate to the sign up page and enter the prompted details to create an account. Once your account has been created, you will be directed straight to the Dashboard.
- Log In : If you have an account already set up, go to the login page and sign in using your account details.

NAV BAR

Weather To Wear uses a navigation bar for easy access to its core features. Below is an overview of all the pages that are accessible via the navigation bar and its main functionalities.

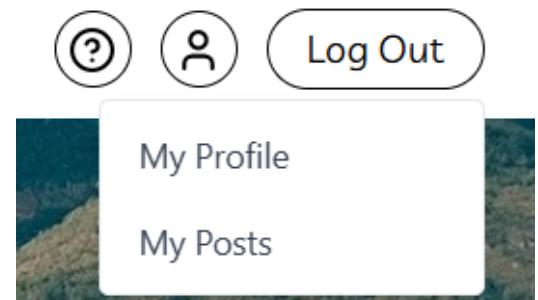

Add To Closet

Create An Outfit

Post To Feed

All Pages:

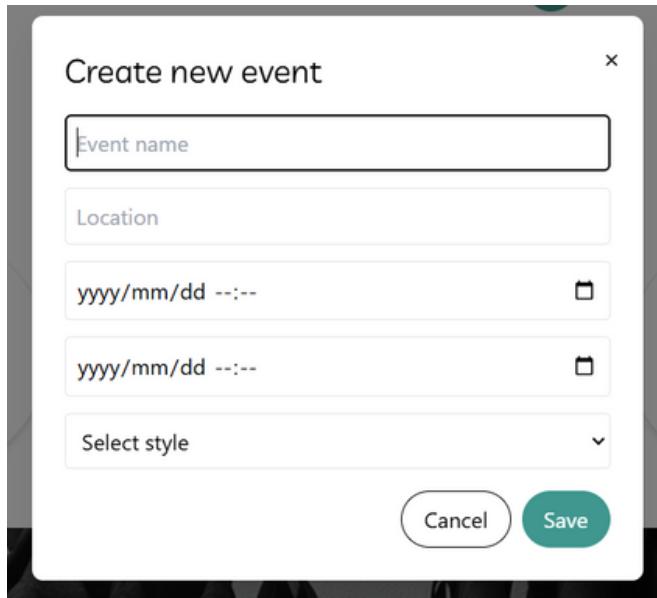

1. Home - navigates to the dashboard
2. My Profile - allows you to view details about your account
3. Add to Closet - navigates to the add page where you're able to add new clothing items to your closet
4. Create An Outfit - allows you to manually create outfits from clothing items in your closet
5. Closet - navigates to the closet page where all your outfits and clothing items are stored
6. Calendar - navigates to the calendar page where you can add events and trips
7. Post To Feed - allows you to upload images to post on your socials
8. My Posts - allows you to view all posts you have shared to your feed
9. Feed - navigates to the social media page where you're able to view posts of people you follow and inspo page
10. Help page ('question mark') - provides a video and hints to navigating the app

1.HOME

- Upon logging in, the user is taken to the dashboard/home page, which contains many features:
 - The Dashboard displays the recommended outfit for the day. This recommendation is based on the weather and your personal style preferences.
 - Five outfits are generated each day allowing you to choose your preferred option. Navigate through the recommended outfits carousel by swiping left or right and rate each one out of five using the stars to help the app learn your style preference.
 - The dashboard also displays the weather of your current location, you are also able to search for other city's weather using the search bar.
 - The dashboard displays any upcoming events you've added at the bottom of the page.

The screenshot displays the WeatherToWear app interface. At the top, there's a header with the app logo, a search bar labeled "Select City" with "Pretoria, South Africa" and a temperature of "18°C", and navigation tabs for "Home", "Closet", "+", "Calendar", and "Feed". Below the header is a weather forecast for Pretoria, South Africa, showing temperatures from 16°C to 20°C for the next 24 hours. To the right of the forecast is a section titled "Outfit of the Day" featuring a "Casual" outfit consisting of a grey t-shirt, dark pants, and grey sneakers. A rating of 5 stars is shown below the outfit. Further down the page is a section titled "Upcoming Events" with four items: "Meeting" (Business Durban Sep 28, 2025 12:1 PM), "Movies" (Casual Pretoria Sep 30, 2025 1:56 AM), "Dinner" (Formal Pretoria Oct 2, 2025 1:56 AM), and "Night Out" (Party Johannesburg Oct 2, 2025 8:20 PM). The overall theme is "Style Made Simple".

- o Create a new event by adding the following details:
 - The event's name
 - It's location
 - The start time and date
 - The end time and date
 - Style for the event (eg: casual, formal, athletic, ect)

Dinner

When: 8/19/2025 09:14 PM – 10:14 PM
Where: Pretoria
2025-08-19: clear — 18°C

Recommended Outfit

Black shirt, Black pants, Brown shoes, Black jacket

★ ★ ★ ★ ★

Edit **Delete**

- o To view details about an event you've created click on that specific event.
- o You'll be provided with not only the details about the event (ie. when, where, ect) but will also be recommended an outfit for that event according to the style you chose.
- o Please note that outfits for an event will only be created if the event is less than a week away accurate weather-based recommendations.
- o You're able to rate the given outfit using the same 5 star rating system.
- o You can also edit the details you put for an event or delete the event all together.
- o Events that have already past will automatically be deleted by the system.

Night out

When: Octob
Where: Recor
Delete this event?
 Are you sure you want to delete this event?

2. MY PROFILE

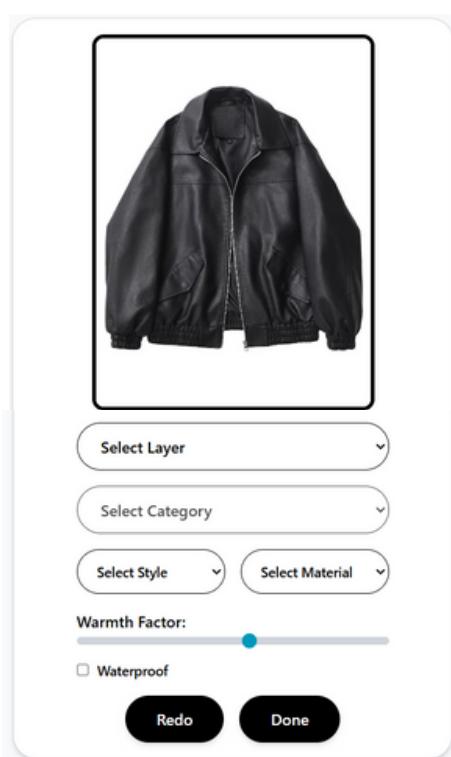

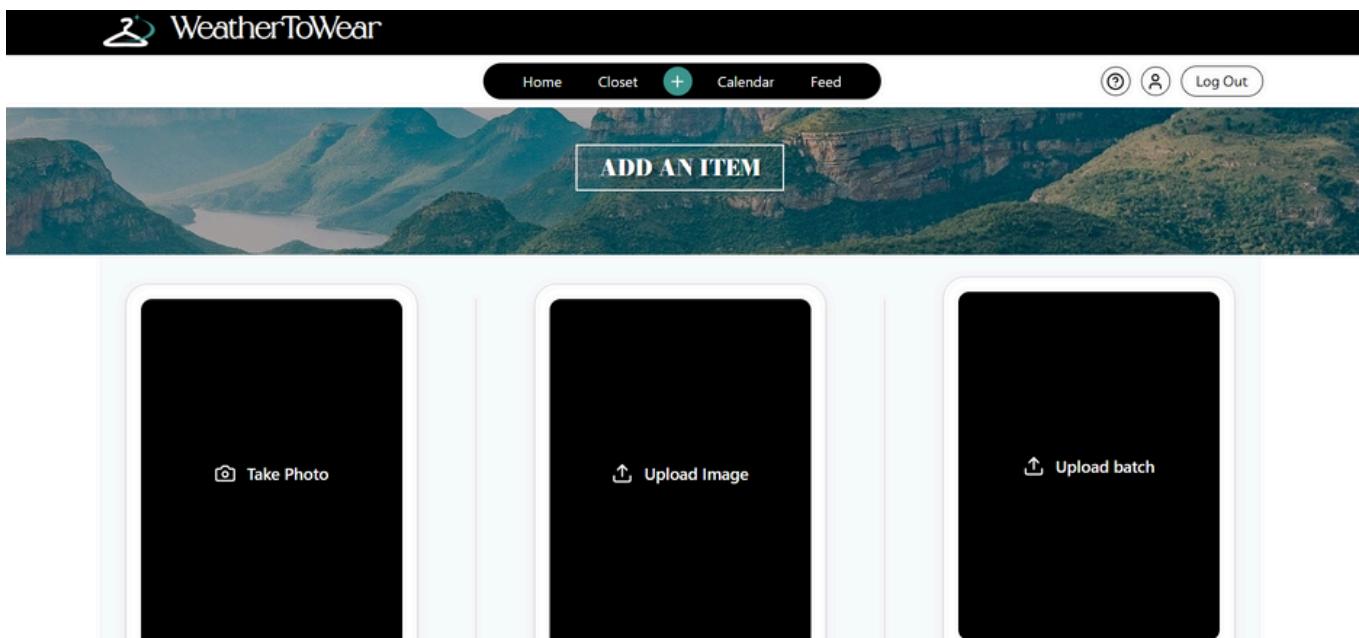

- The Profile page is where you can visit to view/edit or add information to your account.
 - On your Profile page, you are able to view your account information such as your name, email (both of which can be edited), total items and outfits in your closet, as well as your top rated outfits.
 - You can change the privacy of your social media account to private or public.
 - You are also able to access your Style Settings on your profile page.

The screenshot shows the WeatherToWear app's profile page. At the top, there is a navigation bar with icons for Home, Closet, Calendar, and Feed, along with a help icon, user profile icon, and Log Out button. Below the navigation bar is a large banner image of a coastal landscape with rocks and greenery. On the left side, there is a teal circular profile picture containing a white letter 'W'. Below it are two buttons: 'Edit Profile' and 'Style Settings'. The main content area has a section titled 'Top Outfits' displaying three outfit suggestions. To the left of this, there are sections for 'Name' (Weather To Wear) and 'Email' (w2w@gmail.com). There are also buttons for 'Account Privacy' (set to 'Private Account') and 'Edit Profile'. A 'Style Settings' section allows users to customize their style and color preferences. It includes a dropdown for 'Preferred Style' (set to 'Casual'), a color palette for 'Preferred Colors' (with several colors like red, purple, blue, green, yellow, orange, brown, grey, black, and white shown as circles), and a 'Save Preferences' button. At the bottom, there is a 'Theme' section with options for 'Light Mode' (selected) and 'Dark Mode'.

- Select 'Style Settings'
 - These settings allow you to set your preferred style and color options. This helps the AI to learn your personal preferences and recommend outfits that align with your selection
 - Here you are also able to set the theme of the website as either light mode or dark mode.

3.ADD TO CLOSET

- Add Clothing Items : Start adding your personal clothing items to your virtual closet.
 - On this page you will be presented with three options that allow you to add clothing items to your virtual closet either by taking a photo using your device's camera, uploading an image or uploading multiple images using batch upload

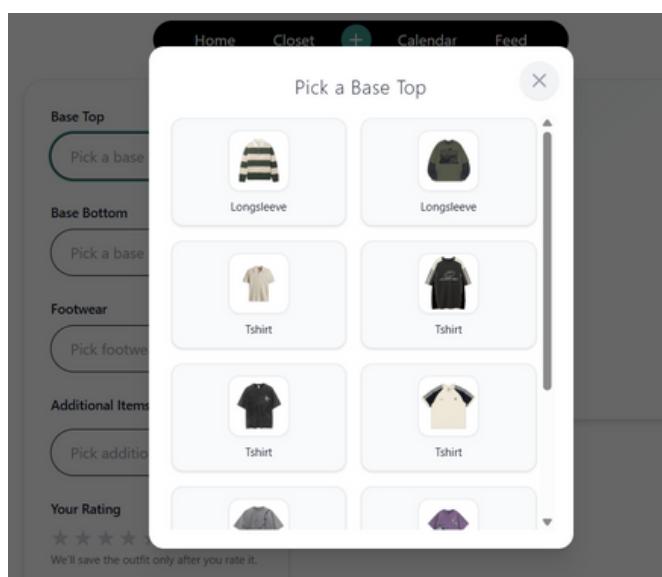

- After selecting one of the three options to add your clothing items, you will be prompted to add details about that specific item.
 - Its layer (eg: base top, outerwear, footwear, etc)
 - The category depending on what layer you select (eg: T-shirt or Long sleeve if you selected base top as your layer)
 - The style you would classify it as (eg: formal, casual, etc)
 - The material it's made out of
 - And how warm you would rate the item from 1-10
 - And if it's waterproof or not.
 - Note the app will automatically scan the picture to remove the background and find the 3 most dominant color of the item.
 - Click 'Done' to add the item to your closet

4. CREATE AN OUTFIT

- The Create an Outfit page allows you to manually create any outfits that you would like to see in your virtual closet using clothing items already saved in your closet.

The screenshot shows the 'Create an Outfit' interface. At the top is a header bar with the WeatherToWear logo, navigation links for Home, Closet, Calendar, and Feed, and user profile icons. Below the header is a large central area titled 'Create an Outfit'. This area contains five sections: 'Base Top' (with a 'Pick a base top...' button), 'Base Bottom' (with a 'Pick a base bottom...' button), 'Footwear' (with a 'Pick footwear...' button), 'Additional Items' (with a 'Pick additional items...' button), and 'Your Rating' (with a 5-star rating icon). A note at the bottom states, 'We'll save the outfit only after you rate it.' To the right of the main area is a light blue sidebar with the text 'Start picking items to build your outfit!'.

- Create an Outfit by selecting:
 - A base top
 - A base bottom
 - Footwear
 - And any additional items (ie. a jacket, hoodie, ect)

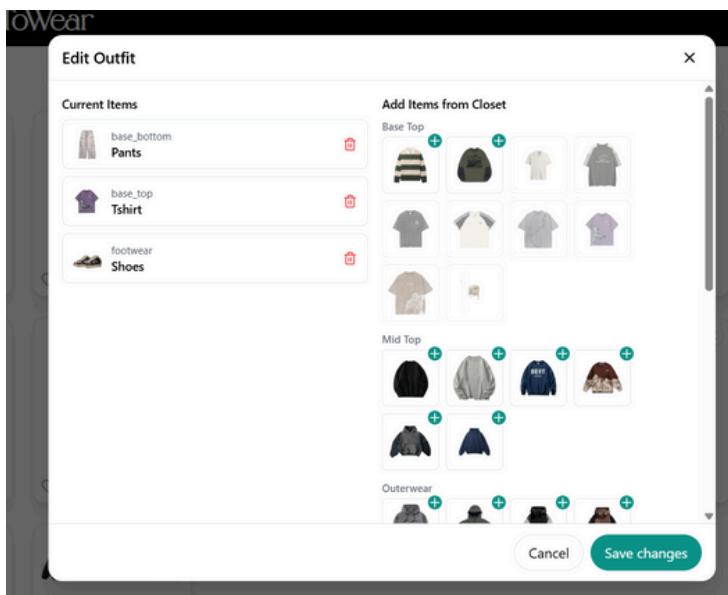

- After you're happy with the outfit you created, rate it and click 'Create Outfit' to add it to your wardrobe.

5. Closet

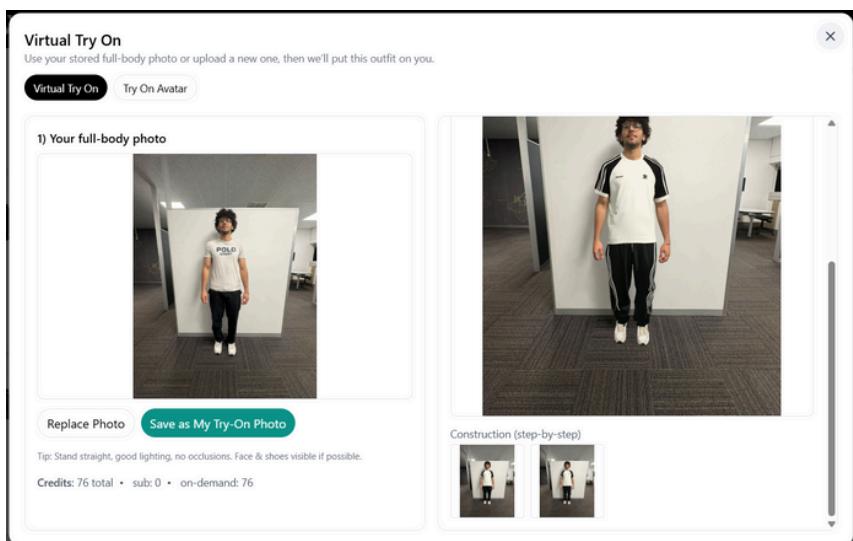

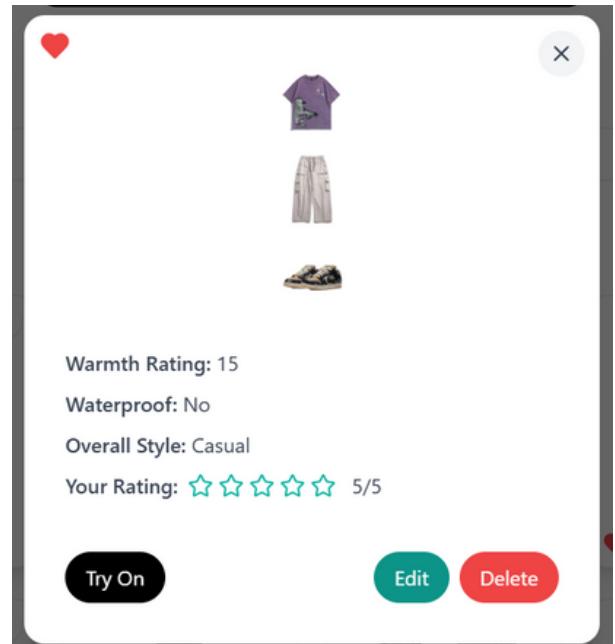

- View and manage your virtual wardrobe.
- Individual items of clothing, compiled outfits, as well as favorites can be found in the closet page.
- Organize clothing according to category, season, or style.
- The option to remove items from your closet and add items of clothing to the favorites is accessible here.
- Use the search bar to search a category of clothing items to make them easier to find (eg: jacket, pants, ect).
- You are able to view outfits you've saved on a 2D avatar or using the virtual try on feature.

The screenshot shows the WeatherToWear app interface. At the top, there's a navigation bar with icons for user profile, search, and settings, followed by the text "WeatherToWear". Below the navigation bar is a secondary navigation bar with tabs: "Home", "Closet" (which is highlighted in green), "Calendar", and "Feed". To the right of these tabs are three small circular icons and a "Log Out" button. The main content area features a large image of a closet filled with clothes, with a central overlay box containing the text "MY CLOSET". Below this, there are several filters and search options: "Select Layer" with a dropdown arrow, "All Categories" with a dropdown arrow, a search bar containing "Search...", and three buttons labeled "Items", "Outfits", and "Favourites". Underneath these filters, there's a grid of nine items, each with a small edit icon and a delete icon. The items include various clothing pieces like a jacket, pants, shirts, and two pairs of Nike sneakers. At the bottom left, there's a detailed view of a pair of dark shorts with a drawstring. This view includes the item's name ("Name: Shorts"), layer ("Layer: base_bottom"), style ("Style: Casual"), material ("Material: Polyester"), warmth rating ("Warmth: 3"), waterproof status ("Waterproof: No"), and the date it was added ("Added: 9/23/2025, 6:31:39 PM"). It also shows color swatches for "#fdfdfdf", "#514f54", and "#2f2e30", along with "Edit" and "Delete" buttons.

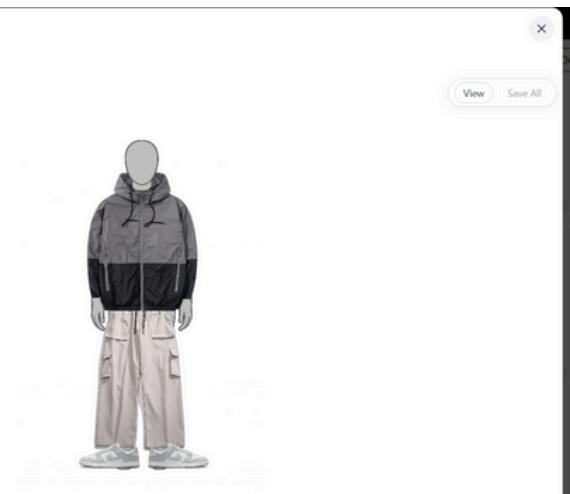

- Click on an item of clothing or an outfit to view details about that item/outfit.
- Click on the heart to add an item/outfits to your favorites making them easier to find, click the heart again to remove it from your favorites.
- You can also edit or delete any piece of clothing/outfit in your closet.

- You are able to edit individual items and outfit is composed of, change the outfit's rating and change the overall style of the outfit.

- The Virtual Try On feature allows you to upload an image of yourself and will virtually layer the current outfit onto your image.

- With the Avatar Try On feature you are able to view your saved outfits on a standard 2D avatar, or
- You are also able to edit the sizing or rotation of individual items onto the avatar.

6. Calendar

- The calendar page allows you to view upcoming events or trips and includes a feature to plan a suitcase for upcoming trips. You are recommended outfits for your trip based on the 'suitcase' you packed.

The screenshot shows a monthly calendar for October 2025. The days of the week are labeled at the top: Sun, Mon, Tue, Wed, Thu, Fri, Sat. The dates from 28 to 31 are listed vertically for each day. Specific events are highlighted with colored bars: 'Movies' (green) on Monday, 'Trip' (green) spanning Tuesday through Friday, 'Dinner' (blue) on Wednesday, and 'Afternoon Run' (orange) on Friday. A button for 'Add Event' is located above the calendar grid. The background features a dark green landscape image with trees.

Thursday, September 25

Pack Edit Delete

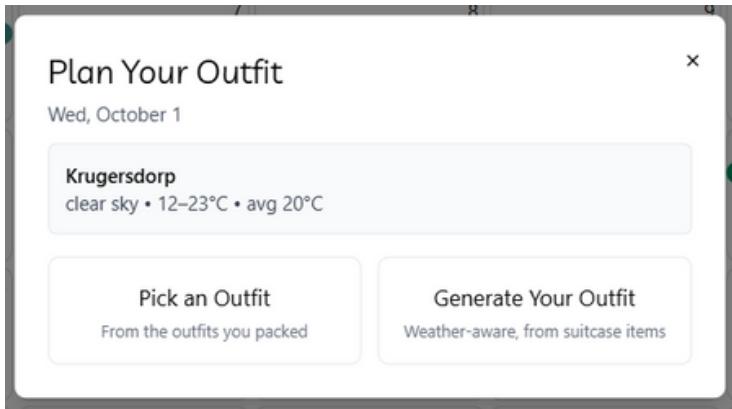

- Click on any trip to view details about a trip you've added.
- Click on the 'Pack' button for the following:
 - Select items and outfits from your closet to 'pack' a suitcase for your trip.
 - You can also add 'other' items you want to remember to pack for your trip (eg: toothbrush, ect).
 - Items are recommended when packing your suitcase based on the weather for your trip.
 - All selected items and clothing will automatically be compiled into a packing list where you can tick off items as you pack them.

Pack Your Suitcase

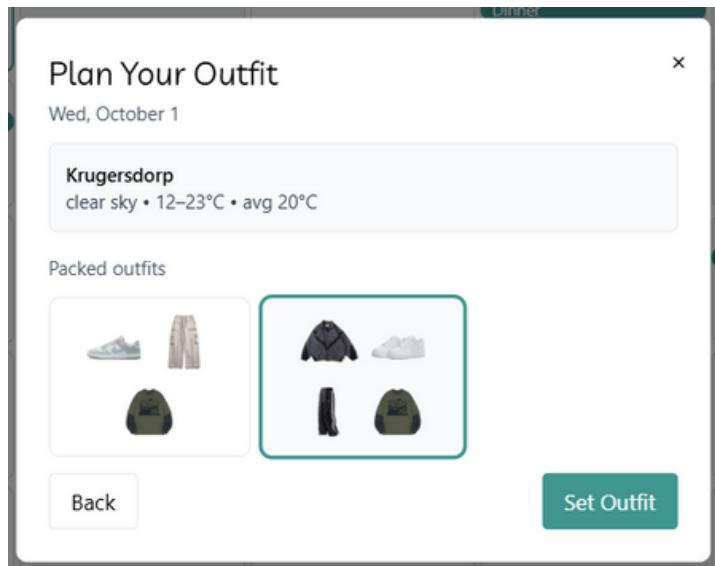

Contents

Items (12)
PANTS
RAINCOAT
HOODIE

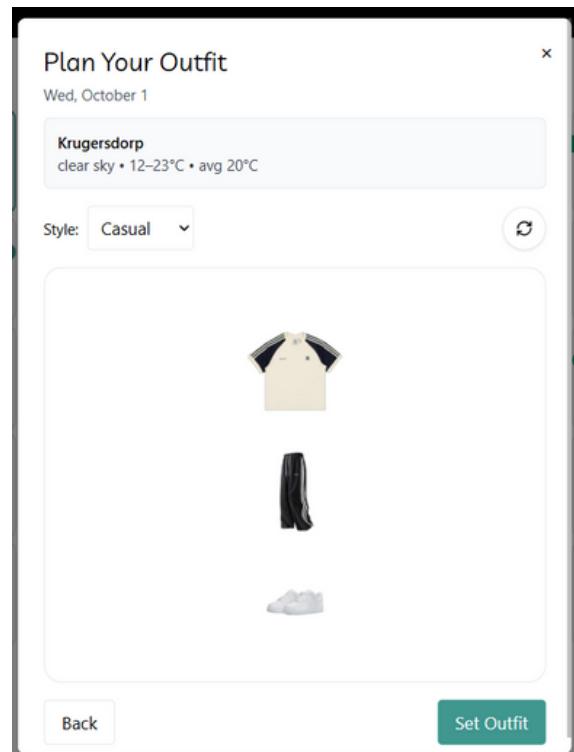

Packing List		
<input checked="" type="checkbox"/>	SHORTS	X
<input checked="" type="checkbox"/>	LONGSLEEVE	X
<input type="checkbox"/>	PANTS	X
<input type="checkbox"/>	HOODIE	X
<input type="checkbox"/>	JACKET	X
<input type="checkbox"/>	JEANS	X
<input type="checkbox"/>	SHOES	X
<input type="checkbox"/>	SWEATER	X
<input type="checkbox"/>	TSHIRT	X
<input type="checkbox"/>	TSHIRT	X

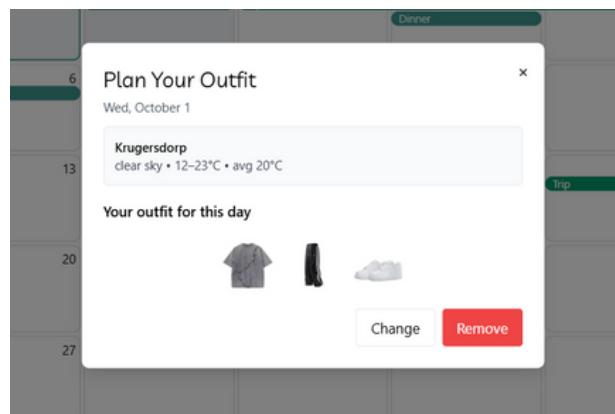

- Once you have selected outfits/clothing items to pack for your trip, you can now go plan your outfit for individual days of the trip using those items you 'packed'.

- You can either pick an outfit from the ones you packed in your virtual suitcase and set that outfit for a day of your trip.

- Or you can generate an outfit for a specific day of your trip based on the weather and style for that day.

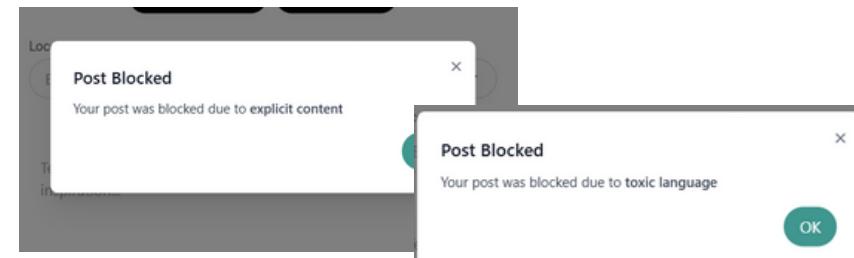

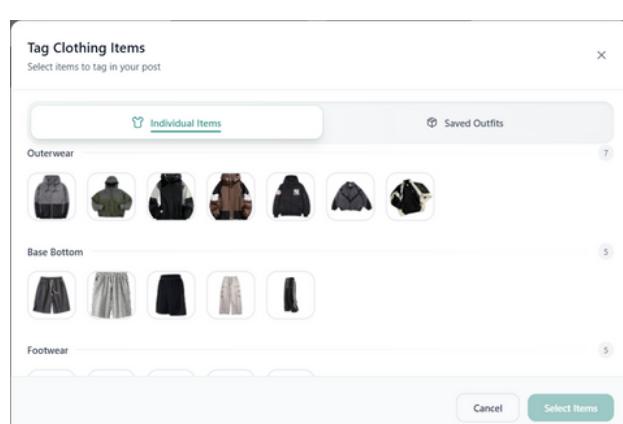

7. POST TO FEED

- Post to feed allows you to upload/take a photo of your outfit to share with friends that follow you.

The screenshot shows the WeatherToWear app's 'Feed' section. At the top, there's a banner with a scenic background and a 'MAKE A POST' button. Below it is a form with fields for 'Upload Photo' or 'Take Photo', 'Location' (with a placeholder 'Enter your location'), 'Weather' (with a placeholder 'Select weather'), and a large text area for 'Caption your Outfit' with the placeholder 'Tell everyone about your outfit, the weather, or your style inspiration...'. There's also a 'Tag Clothing Items' section with a button to 'Tag Clothing Items'.

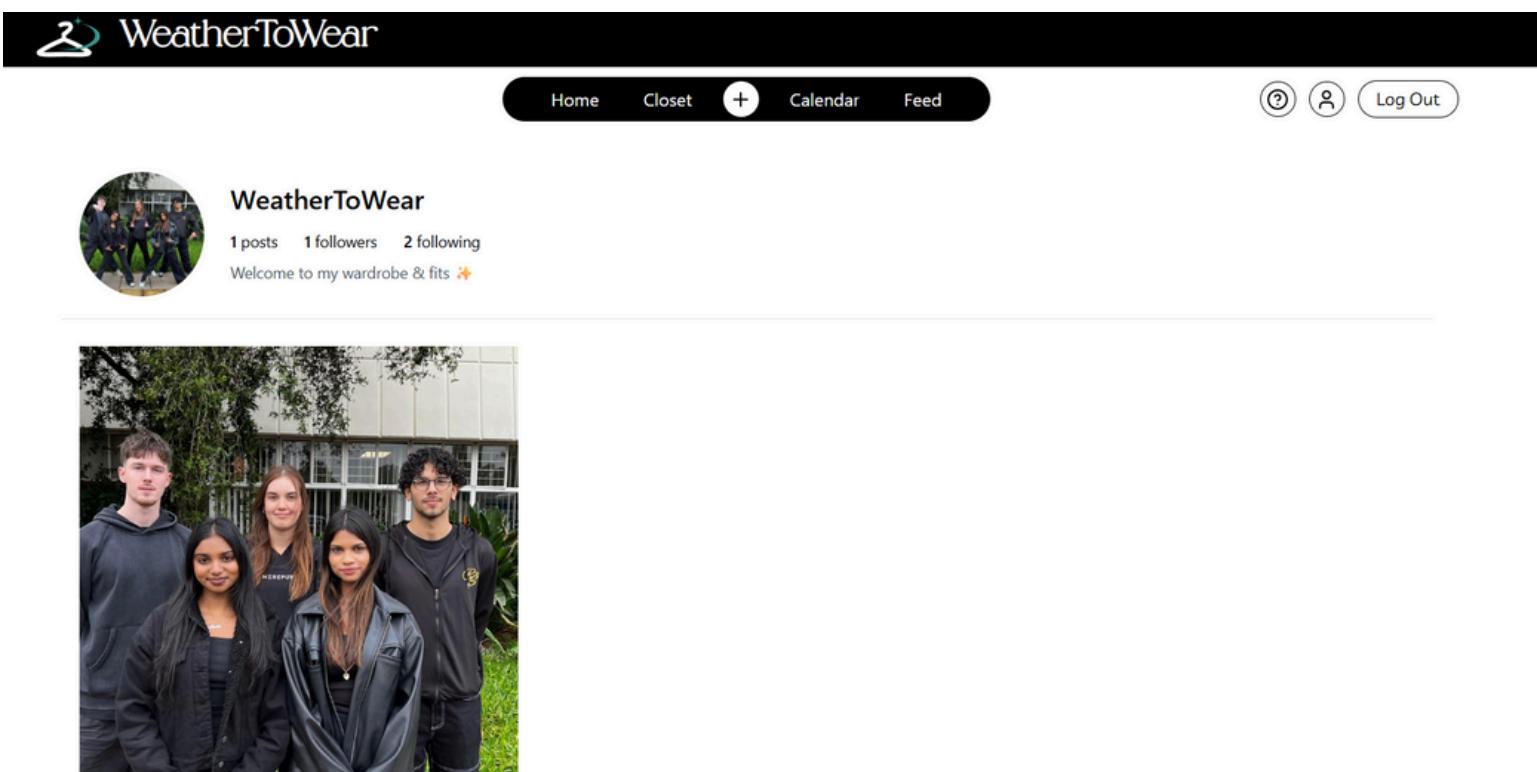

- To create a post, add:
 - The image you want to share.
 - The Location where the picture was taken.
 - The weather condition it was when the photo was taken
 - A caption for your post
 - And any clothing items from your closet that you want to tag in your post.
- Click 'Share Post' to add it to your feed.

- Note that inappropriate content (ie. Images and comments) block your post from being shared to feed.

8. MY POSTS

- The My Posts page is basically like a profile page but for your social media.
- It displays your:
 - User name
 - Number of posts
 - Your followers
 - People you're following
 - And all your posts

The screenshot shows the WeatherToWear app's profile page. At the top, there is a header with a weather icon and the text "WeatherToWear". Below the header, there is a user profile section featuring a circular profile picture of a group of people, the username "WeatherToWear", and statistics: "1 posts", "1 followers", and "2 following". A welcome message "Welcome to my wardrobe & fits 🌟" is also present. The main content area displays a group photo of five people standing outdoors in front of a building. On the right side of the screen, there is a detailed view of one of the posts from the feed, showing the same group photo and the caption "The Weather To Wear Team!". The post has 2 likes and a comment from "@Tayy: Best team!!!". There is also a text input field for adding a comment.

- Click on any post to expand it to view:
 - Its caption
 - Number of likes
 - All comments on the post

9.FEED

- The social media/feed page allows for you to share your outfits with friends, as well as comment and like on posts of anyone you follow. It also includes a notification bar where you can see other users interactions with your posts and approve or reject follow requests.

The screenshot shows the WeatherToWear app's feed page. At the top, there's a navigation bar with Home, Closet, +, Calendar, and Feed buttons. To the right are profile icons and a Log Out button. On the left, a sidebar has Notifications (with one new request) and Inspo buttons. A search bar is at the top of the main content area. Below it, a post from user Tay (Pretoria) is shown, featuring a tan jacket over a white shirt and tie. The post has options to Accept or Reject a follow request. A search bar at the bottom left shows the name 'Kyl'. On the right, there's a profile for user @Kyle with 3 followers, a Follow button, and two sections of recommended outfit cards labeled 'Casual Style'.

- Search for friends using the search bar where you are able to follow them if they have a Weather To Wear account.
- Following friends allows you to view, comment and like their posts on your feed page.
- View a preview of recommended outfits from the inspiration page.
- You are also able to view the profile pages of other users that you follow.

10.Inspo

- The inspo/inspiration page creates recommend outfits for you based on images you've liked on your feed page of your friend's posts which have their outfit's tagged to posts.

The screenshot shows the WeatherToWear app interface. At the top, there is a navigation bar with icons for Home, Closet, Calendar, and Feed, along with a user profile and Log Out options. Below the navigation bar is a banner titled "TOP PICKS FOR KYLE". The main content area displays an "Athletic Outfit Idea" consisting of four items: a long-sleeve top, a skirt, shoes, and a jacket. Each item has a small description below it. A "Temperature Suitability" slider is shown between the long-sleeve top and the skirt. On the left side of the screen, there are filter sections for Style (Any Style), Temperature Ranges (Freezing, Cold, Cool, Very Hot, Mild, Warm), and Weather Conditions (Sunny, Cloudy, Rainy, Drizzle, Windy, Cold, Freezing, Hot). At the bottom right, there is a "Filters" button and a "Generate" button.

- Five recommended outfits are shown at a time.
- You can regenerate recommended outfits to view more options.
- You can Filter what recommendation outfits you want to see on your inspo page.

11. HELP PAGE

- The help page contains a video and frequently asked questions with answers to help new users navigate the app.

The screenshot shows the WeatherToWear app's Help Center. At the top, there is a navigation bar with icons for Home, Closet, Calendar, and Feed, along with user profile and log-out options. Below the navigation bar is a large image of a closet with hanging clothes. Overlaid on this image is a white rectangular button with the text "HELP PAGE". Below the image, the title "Weather to Wear Help Center" is displayed. A video player interface is shown, indicating a video duration of 2:46. The video content is not visible. Below the video player, there is a section titled "Getting Started" which contains frequently asked questions and their answers. The first question is "What is Weather to Wear?", followed by a description of the app's purpose. The second question is "Do I need to create an account to use Weather to Wear?", with an explanation that it allows saving clothing preferences and posting outfits. The third question is "How do I input my location?", with instructions on location access or manual entry. There are also sections for "Using the App", "Customization", and "Troubleshooting & Support".

HELP PAGE

Weather to Wear Help Center

Welcome to the Weather to Wear Help Center. Below is a video tutorial on how to use Weather to Wear.

0:00 / 2:46

Getting Started

What is Weather to Wear?
Weather to Wear is an app that suggests clothing and accessories based on your local weather forecast, personal style preferences, and planned events.

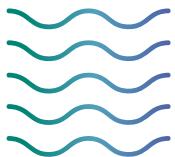

Do I need to create an account to use Weather to Wear?
Yes, you do need an account to use Weather to Wear, this allows the app to save your clothing preferences according to the outfits in your personal wardrobe. This also allows you to post your outfits for friends to see through the Weather to Wear feed.

How do I input my location?
Allow location access when prompted, or manually enter your city in the dashboard. You can manually change your location in the user profile section of the app.

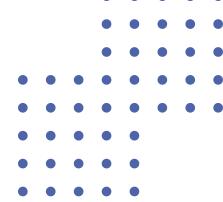

Using the App
